

I do not want the FCC to interfere with the Wisconsin "DO NOT CALL LIST" I do not want to be bothered with tele-marketers. I am paying for my phone service for my own business. I want to communicate with my family and friends. If I want to talk to a company it is my decision to call them. People have their own lives to live. they don't need intruders in their personal life.

If they want to talk to me, they can put out a list of their home phones, and I will call them at dinner time, bed time, when they are busy with their children. Or just relaxing watching a TV program.

I don't know why they haven't gotten the hint yet, most people have caller ID and just ignore the call.

Please leave the law for the "NO CALL LIST" alone, I for one do not want to be bothered.

Thank You
